## Inset Collection

The wonderful Inset fire collection from Broseley Fires covers a wide variety of styles, from striking contemporary designs to classic traditional elegance. The option of coal or pebble fuel effect allows you to customise your fire to your particular taste, there really is something to suit everyone.

Each fire comes fitted with an extremely low noise level fan, for which these products are renowned. Beautifully realistic flame effects and very discreet controls complement the flame effects to give the impression of a real fire.

The Tiffany, Palermo, Dorset, Sicilian and Sienna Inset fires are not only beautifully designed, but extremely practical and suitable for any home. These eye-catching fires are only 75mm in depth, allowing installation within even the smallest fireplace, not only this each fire can be installed against a flat wall using the optional spacer, so even those without a fireplace need not miss out on the luxury of an Inset Fire.

Broseley Fires have a strong belief in continuously improving their products. This has resulted in a brand new range of Traditional and Modern flame effect fires with a number of innovative features.

## DIMENSIONS

### TIFFANY

A: 492mm Min.  
 B: 598mm Min.  
 C: 213mm Min.  
 D: 75mm Min.  
 E: 387mm Min.  
 F: 546mm Min.

N.B. All dimensions are minimum sizes.

## FEATURES TIFFANY

- Three position switch (ON/1KW/2KW)
- Thermostat and three position switch controls discreetly positioned behind the hinged canopy.
- Illumination is provided by low energy compact fluorescent lamps with SES lamp cap rated at only 7W. The life expectancy of these lamps far exceeds that of a standard incandescent lamp and gives the output of a 40watt standard lamp.
- Combination element/fan provides whisper quiet performance
