

PREMIUM GAS LOG SETS

Exclusive Collection

The Magic Hour... it's that special time of the day when family and friends gather around the comfort of the fireplace and your home is aglow with life. Real-Fyre gas logs are the cleanest, most realistic - convenient alternative to burning real wood. In fact, by burning Real-Fyre gas logs instead of wood, you become a friend to the environment by dramatically reducing pollutants into the air.

Available in two authentic styles, every Real-Fyre gas log is painstakingly hand-crafted and hand painted to create the most realistic gas log set ever manufactured - from its active natural flames down to its glowing bed of lifelike embers. The result is a log set that not only enhances the beauty of your hearth, but your experiences around the fireplace for years to come. Experience the Real-Fyre Exclusive Collection and...

Experience What's Real.

CHARRED

AMERICAN OAK

Charred American Oak (CHAO)

Sizes: 16", 18" & 24"

Like an artist who can bring the beauty of nature to life, Real-Fyre artisans work from real wood samples to meticulously recreate the intricate bark detail and natural colouration of deeply charred wood. The burnt-through centres of the log sets reveal the brilliance and fiery heart of a robust, long-burning fire. As with every Real-Fyre log set, reinforced steel rods are carefully inserted into each to ensure durability. The Charred Series are the acknowledged pinnacle of realistic log sets.

SPLIT OAK

DESIGNER PLUS

Split Oak Designer Plus (SDP)

Sizes: 16", 18" & 24"

The Split Oak Designer Plus logs are hand-painted originals - modelled from real log samples - that will not only add a touch of elegance to your home, but a memorable touch to your every experience around the hearth. Indeed, there's nothing like Real-Fyre - from the convincing detail of their knot holes to their highlighted ends - to capture the realism, texture and subtle nuance of nature's handiwork. Experience the Designer Series from Real-Fyre and experience what's worth remembering.
